EXPERIENCE

Invisible Geeks – Full Stack Developer

Madrid, Spain | September 2024 – March 2025

- Developed the entire frontend of a web app using Vue.js, ensuring scalability and reusability through modular components.
- Built backend services with Laravel (MVC), creating models, controllers, and API endpoints.
- Collaborated in an agile team with daily stand-ups and sprint planning using Jira.

Publicis Groupe – Full Stack Developer

Buenos Aires, Argentina | March 2024 – September 2024

- Translated UX/UI designs into responsive web interfaces using React and TailwindCSS.
- Designed and implemented databases and backend logic following the MVC pattern.
- Collaborated with design and product teams to optimize user experience and maintain performance standards.

Freelance – Web Developer / UX/UI Designer

Buenos Aires, Argentina | January 2024 – Present

- Design and development of custom websites for clients, aligned with their visual identity and business goals.

- Creation of UI designs and interactive prototypes in Figma, applying usability and user experience principles.
- Implementation of functionalities and animations using JavaScript.
- Development and customization of WordPress sites, including layout, plugins, and basic SEO optimization.
- Direct client communication and time management.
